

DV1003TM-2F:

Dispense Valve with mounting manifold, integrated flow control, and luer lock adaptor. Valve is air to open, spring to close. Valve has 10-32 air inlet port with fitting for use with 1/4" tubing and 1/8" NPT material inlet port. Valve is designed for use with time dispense systems. The maximum pressure rating is 1,500 PSI. Includes Outlet port 1/8 NPT Female adaptor.
